

PERKOOOL 694-AL

Product Data Sheet

Perkool 694-AL is an outstanding water miscible synthetic coolant developed for a wide range of cutting and grinding operations on various metals including brass, aluminum, all steels and many alloys. Perkool 694-AL was specifically developed, with its low pH to be gentle on non-ferrous metals.

FEATURES

- ◆ Transparent, gentle on skin and pleasing odor give good operator acceptance
- ◆ Easily mixes in all kinds of water, is non-foaming and leaves a soft, clean residue on the machine surfaces
- ◆ Non-nitrite corrosion package provides important rust and stain protection

- ◆ Superior heat dissipation and extreme pressure characteristics provide superb tool and wheel life
- ◆ Treatable by most industrial and municipal standards

TYPICAL SPECIFICATIONS

TEST	RESULT
Color, Appearance	Clear Yellow
pH @ 5%	7.2 – 8.2
Chlorine	None
Sulfur	None
Foam Characteristics	Very Low
Flash Point, C.O.C.	None
Pounds Per Gallon	8.6
